Office Action Summary	Application No. 09/810,519	Applicant(s) ZHOU ET AL.	
	Examiner DANIEL S. FELTEN	Art Unit 3696	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-13 and 37-50 are rejected under 35 U.S.C. 103(a) as being obvious over Koppelman et al (US 6,662,164)

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art only under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 103(a) might be overcome by: (1) a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not an invention "by another"; (2) a showing of a date of invention for the claimed subject matter of the application which corresponds to subject matter disclosed but not claimed in the reference, prior to the effective U.S. filing date of the reference under 37 CFR 1.131; or (3) an oath or declaration under 37 CFR 1.130 stating that the application and reference are currently owned by the same party and that the inventor named in the application is the prior inventor under 35 U.S.C. 104, together with a terminal disclaimer in accordance with 37 CFR 1.321(c). This rejection might also be overcome by showing that the reference is disqualified under 35 U.S.C. 103(c) as prior art in a rejection under 35 U.S.C. 103(a). See MPEP § 706.02(l)(1) and § 706.02(l)(2).

Art Unit: 3696

Koppelman discloses a method for consolidating net payment and debt management

using a computer system comprising:

obtaining one or more ledger items for a distributor from a commission model; generating compensation for said distributor by processing said one or more ledger items through one or more adjustment rules, wherein each of said one or more adjustment rules operates on each of said one or more ledger items (see Koppelman Abstract, column 2, line 50 to column 3, line 9; and column 7, lines 35-54);

Koppelman discloses various rules which contain conditions that must be met (see column 11, lines 12+), but fails to disclose repayment rules per se. Because Koppelman discloses that fact that a ledger item represents an amount paid to a sales representative in a point-forward embodiment (see column 18, lines 6+) and that promotions calculate an earnings payment based upon a formula using several performance variables (see column 7, lines 25-26). It is notoriously old and well known in the art that performance variables constantly change based upon conditions which may increase or decrease compensation after certain compensation has been distributed to a sales representative. Thus it would have been obvious for an artisan of ordinary skill at the time of art to provide a repayment rules for advances received by a distributor to correct any over compensation or erroneous payment provided by the system to a sales representative. Such a modification would create a more efficient system and save money. Thus a modification would be an obvious expedient to one of ordinary skill in the art.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
